### ***FEDERAL GRANT PROGRAM***

#### ***EXECUTIVE SUMMARY***

The Delta Regional Authority (DRA) is pleased to present this profile of its Federal Grant Program. It has been created to provide a comprehensive, concise summary of the Authority's grant portfolio for the last five years.

The grants reported in this profile were first reviewed by the Office of the Federal Co-Chairman to determine whether or not the grant request met the guidelines mandated by the Congress. The governors of each of the eight states were then asked to prioritize the projects based on their state's plan which was submitted to the Authority and kept on file in the Authority's central office. After a full application is then made for each project and once the project applicant has met all necessary requirements, the governors of the eight states and the federal co-chairman then vote on each individual project. This thorough process has led to the Authority now having one of the most successful grant programs in the country.

During the first five years of the program, the Authority has invested \$47,611,072 in some 333 projects in the eight-state region. These DRA dollars leveraged other public funds totaling \$207,100,170 for total public fund investment of \$254,711,242. In other words for every DRA dollar invested some \$4.35 in other public funds were made available for these worthy projects. Additionally, the DRA dollars leveraged private investment of \$480,612,796.

All DRA investments are carefully monitored to insure that the grantees fulfill their commitments and that at least 75% of the DRA grant dollars are invested in economically distressed counties or parishes and that at least 50% of the DRA dollars are invested in transportation and basic public infrastructure. Currently 94.83% of the DRA dollars invested in the 333 projects presented in this profile are invested in economically distressed counties and parishes and 70.55% of the DRA dollars invested in these projects are invested in basic public infrastructure and transportation infrastructure.

In summary, during the first five years of this program the DRA project dollars joined with other public and private dollars for some \$735,324,038 in total investments in the region. The application's for these projects estimate that some 31,000 jobs will be created or retained once the projects are completed and that they will assist in running water and sewer to some 24,000 families. Additionally, the jobs training program will help place some 6,235 hard working individuals in jobs which are waiting on them when they complete their training.

**OTHER PRIVATE INVESTMENT:** During the first five years of the program, projects funded in part by DRA dollars attracted private investment totaling \$480,612,796.00 which is a ratio of 10.1:1. This private investment is in addition to any funds necessary to complete a project.

State	DRA Investment	Other Public Investment	Other Private Investment	Total Investment
Alabama	\$4,866,769	\$13,165,722	\$20,000,000	\$38,032,491

Louisiana	\$9,253,132	\$59,832,940	\$185,195,000	\$254,281,072
Mississippi	\$6,115,772	\$16,162,668	\$11,412,312	\$33,690,752
Missouri	\$5,428,937	\$22,701,865	\$7,734,000	\$35,864,802
Tennessee	\$5,423,407	\$9,385,185	\$1,390,000	\$16,198,592
<b>TOTAL</b>	<b>\$47,611,072</b>	<b>\$207,100,170</b>	<b>\$480,612,796</b>	<b>\$735,324,038</b>

A combination of all leveraged dollars to DRA dollars would reveal an outstanding five-year ratio of 14.4:1.

As per the Delta Regional Authority enabling legislation, each state must spend at least 50% of the states DRA allocation on a combination of Basic Public Infrastructure and Transportation Infrastructure projects. The following table will quickly let you know if your projects are meeting this criteria from year-to-year.

In order to help explain some of the terminology used within the report we have included brief definitions of key terms and a general description of the report format. The report is divided into eight states with each state broken into four color-coded sections.

- **SECTION 1:** (Blue) Offers a summary of all projects, grouped by fiscal year.
- **SECTION 2:** (Green) Offers a summary of all projects, grouped by fiscal year and funding priority (*basic public infrastructure, business development, transportation infrastructure, job training/employment related education and other*) as set forth in our enabling legislation.
- **SECTION 3:** (Yellow) Groups all projects by fiscal year. Project details are listed beneath each fiscal year and sorted by the DRA project identification number.
- **SECTION 4:** (Red) Distributes all projects based on Congressional District lines, grouped by fiscal year. Projects are listed beneath each fiscal year and sorted by the DRA project identification number.

### Column headers described:

- ***City:*** City of grantee for the specific project.
- ***Grantee Name:*** Legal name of entity applying for DRA funding.
- ***Project ID:*** Unique DRA identifier for each project.
- ***Project Name:*** Name of project as listed on DRA application.
- ***DRA Project Funds:*** The Authority's portion of the total project cost (grant amount).
- ***Other Project Funds:*** 'Other' funds attributed to the total project cost (federal, state, local, and/or non-profit dollars).
- ***Total Project Cost:*** Total cost for the specific project, which does not include private investment.
- ***Total Investment:*** The total investment by all participating entities resulting from and associated with a project.
